

Bentley Green Condominiums

LOCATION

Madison, WI

CLIENT

Bentley Group

PROJECT SERVICES

- Civil Engineering
- Stormwater Management
- Surveying

Located in the Hawk's Landing development on Madison's far west side, Bentley Green provides luxury condominium living in a setting designed to replicate a small-scale European neighborhood. The architecture and features of the units and buildings are reminiscent of the old-world charm one would find in a quaint setting while traveling abroad.

With both duplexes and multi-unit buildings, the master plan for the development incorporates a variety of open spaces and amenities, such as a gazebo and putting greens. A bike path travels through the site and connects to the larger network within Hawk's Landing and ultimately the City of Madison.
