A new Fairfield Inn & Suites by Marriott hotel is set to open in Baraboo, Wisconsin in 2023. The hotel will be located at 100 Gateway Drive, just off of U.S. Highway 12.

The hotel will feature 80 rooms and suites, a fitness center, an outdoor pool, a hot tub, and a free breakfast buffet. The hotel will also have a business center and meeting space for up to 50 people.

The new Fairfield Inn & Suites will be a welcome addition to the Baraboo area. The hotel will provide much-needed lodging for visitors to the area, which is home to a number of popular attractions, including the Wisconsin Dells, Devil's Lake State Park, and the Circus World Museum.

Vierbicher also provided construction staking services to Northcentral Construction for this project.
